BEHANCE

Ekaterina Blagireva, Senior Product Designer

Senior Product Designer for complex, technical products. I own design end to end, from user research to shipped UI and scalable design systems, and I'm comfortable close to the code. Recent work: developer-facing SQL and data-engineering tools.

EXPERIENCE

02

12.2022 - Present

Tier One Analytics

Sole designer on PondPilot, a browser-based SQL tool for analysts and engineers. Research to shipped UI. Open-source.

Designed Alchemist (SAS→Spark platform for data teams); front-end built its React dashboard.

Dashboards and complex data interfaces across BI projects (Power BI, Tableau): banking, telecom, logistics, retail.

React/TypeScript; close work with engineers.

11.2018 - 12.2022

Glowbyte Consulting

Led UX/UI and data-visualisation in the BI department; team of 6.

300+ dashboards: UX/UI design, build, client defence, mentoring.

Authored company-wide data-viz and UX/UI standards.

12.2015 - 11.2018

Pepsico LLC

Tableau dashboards and reporting for regional teams; led "Nielsen data in Tableau".

01.2013 - 12.2015

Samsung LLC

Sales and market analysis (SAP/BO); performance and ROI dashboards.
